

A cooperative community where pupils from different backgrounds, beliefs, and cultures grow together.

Belle Vue have now moved into their permanent home on Hyde Road, Manchester. The new building has a capacity for 1200 pupils and consists of a main three-story building including reception, community hub, **library**, D&T rooms, a science lab, and dining hall, with a teaching block and adjoining drama block.

They also have state-of-the-art sports facilities with Sports England standard pitches and a multi-use games area.

Their ethos is to grow a cooperative community where pupils from different backgrounds, beliefs, and cultures grow together, developing the skills and character they need to be successful beyond their time at the academy.

Belle Vue approached WF Education to take care of their library in this new academy. We used the versatile and mobile Cantilibra™ shelving system which modernised the space inline with the rest of the school.

They chose to accent the space with a pop of colour, selecting the vibrant kiwi from our range for both their shelving and seating selection. The double-sided mobile shelving units can be easily moved to the edges of the space to accommodate events and exhibitions or can be used as an additional teaching space.

Also provided by WF Education were the chairs and Tambour cupboard to complete the space.

This new facility represents not just bricks and mortar, but an investment in the future of our students and community!

- Scott Fletcher, Head of Academy

The Cantilibra™ solution is designed to showcase the wide range of books while maintaining a beautiful aesthetic within the library. Functional, scalable, and designed to last, Cantilibra™ brings a touch of modernism without fighting against the overall environment.

The layout of the space was carefully planned by our design team, considering the surface area, the available space, and the needs of the library and school staff, as well as its users.

With choice of colours and materials, the versatility of our system means we have something for every taste and aesthetic. You can customise the shelving with different colours and finishes and add accessories, to create a truly bespoke space.

Our design team will be delighted to discuss your next amazing space.
