## Section 5- Fire-Fighting Measures

### 5.1 Extinguishing media

**Suitable Extinguishing Media** • Regular foam, carbon dioxide, dry chemical.

### 5.2 Special hazards arising from the substance or mixture

**Unusual Fire and Explosion Hazards** • None

**Hazardous Combustion Products**

- Special Firefighting Procedures: Full emergency equipment with self-contained breathing apparatus and full protective clothing should be worn by fire fighters. During a fire, vapors and other irritating, highly toxic gases may be generated by thermal decomposition or combustion. Isolate from heat, electrical equipment, sparks and open flame. Closed container may explode when exposed to extreme heat. Solvent vapors may be heavier than air. Stagnant air may cause vapors to build up and travel along the ground to an ignition source which may result in a flash back to the source of the vapors.

## Section 6 - Accidental Release Measures

### 6.1 Personal precautions, protective equipment and emergency procedures

- Personal Precautions** • Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
- Emergency Procedures** • As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) Keep out of low areas. Keep unauthorized personnel away. Stay upwind. Ventilate closed spaces before entering.

### 6.2 Environmental precautions

- Avoid run off to waterways and sewers.

### 6.3 Methods and material for containment and cleaning up

- Containment/Clean-up Measures** • Stop leak if you can do it without risk. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Use clean tools to collect absorbed material. LARGE SPILLS: Dike far ahead of liquid spill for later disposal.

## Section 7 - Handling and Storage

### 7.1 Precautions for safe handling

**Handling** ● Keep away from heat and ignition sources – No Smoking. Use only with adequate ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

**Storage** ● Store in a cool/low-temperature, well-ventilated place away from heat sources. Keep container closed when not in use. Keep away from incompatible materials.

**Incompatible Materials or Ignition Sources** ● Will not easily ignited by heat, sparks or flames. Containers may explode when heated.

## Section 8 -Exposure Controls/Personal Protection

### 8.1 Control parameters

● In accordance with good industrial practices, handle with care and avoid personal contact.

### 8.2 Exposure controls

**Engineering Measures/Controls** ● Adequate ventilation systems.

### Personal Protective Equipment

#### Pictograms

**Respiratory** ● In case of insufficient ventilation, wear suitable respiratory equipment. Use a respirator if exposure limits are exceeded or symptoms are experienced.

**Eye/Face** ● Wear safety glasses.

**Hands/Skin/Body** ● Wear safety gloves.

**General Industrial Hygiene Considerations**

- Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Safety shower and eye wash should be available close to work areas.

**Environmental Exposure Controls**

- Follow best practice for site management and disposal of waste. Avoid release to the environment.
